CONTENTS.

VOL. XXX.

Page

Accumulator, test with..... 171
Algebra of algebraic numbers.. 225
Alloy, new..... 46
Arches, curves in..... 353
Architecture, hydraulic..... 14
Arch, pressure in..... 142
Arlberg tunnel..... 82
Armament question..... 348
Armor plate trials..... 523
Armorplates, trials of..... 439
Asbestos enamel..... 187
Asphalte mortar..... 104
Austro-Turkish railways..... 174

Balloon motor..... 461
Batteries, primary..... 263
Batteries, secondary..... 214
Beams, stresses in..... 1
Bessemer steel, American..... 438
Bessemer steel in Great Britain. 347
Blowholes in steel..... 261
Boilers, corrosion of..... 509
Boilerwork, riveted joints for.. 59
Bridge testing..... 521
Bridge truss, economic..... 520
Burnt Steel..... 521

Book Notices.
Carpenter, W. L., B.A., Energy in Nature..... 264, 439
Clark, J. M., Railway Turnouts..... 264
Emonts, W. A. G., Metric and Non-Metric Weights and Measures..... 440
Finlay, John P., The Special Characteristics of Tornadoes..... 524
Fiske, Lieut., B. A., U. S. N., Electrical Engineering... 86
Gardner, J. T., New York State Survey..... 86
Gray, A., F. R. S. E., Measurements in Electricity and Magnetism..... 351
Haupt, L. M., The Topographer..... 175
Hudson, J. R., C. E., Tables for Calculating Cubic Contents of excavations..... 264
Jeans, W. T., Creators of the Age of Steel..... 351
Jukes-Browne, A. J., Student's Hand-Book of Physical Geology..... 524
Kiddle, Henry, A.M., On Physics..... 175
Knight's New Mechanical Dictionary..... 175, 264
Lockwood, T. D., Electricity. 85
May, G., Bibliography of Electricity and Magnetism.... 351
Morgan, H. T., Summary of Tactics..... 175
Mott, H. A., Ph. D., The Air We Breathe..... 264
Mulhall, M.G., F.S.S., Dictionary of Statistics..... 351
Murdock, J. B., Electricity and Magnetism..... 264
Naquet, A., Legal Chemistry. 524

Page

Observer, Shaving and Sawdust..... 524
Pratt, Maj. S. C., Military Law..... 85
Rixford, E. H., Wine Press and Cellar..... 264
Swinton, A. A. C., Electric Lighting..... 351, 440
Tait, P. G., M. A., Heat..... 440
Thomson, J. J., M. A., Motion of the Vortex Rings..... 175
Ward, Fred'k K. Ward, The Elements of the Heliograph..... 524
Wardell, Lieut.-Col. W. H., R.A., Gunpowder and Guncotton..... 175
Watt, Alexander, Art of Soap Making..... 440

Brace, Howe truss..... 49
British measures and metric measures..... 312
Bronze, manganese..... 53
Brown hoisting apparatus..... 259

Calculation of pressure in an arch..... 142
Canadian railways..... 522
Canal, Suez..... 31
Cannon, rifled..... 523
Carbon in steel..... 83, 238
Chinese foot rule..... 176
Choice of lubricants..... 302
Cipher code..... 418
Civil Engineers Institution of.. 289
Cloud observations..... 88
Coloring for solder..... 524
Compound steam engines.. 428, 441
Compression of steel..... 84
Conductors, Electrical..... 78
Construction of long tunnels... 169
Construction of testing machines..... 204, 325, 382
Conversion of light into electricity..... 176
Conversion of metric into British measures..... 312
Corrosion of boilers..... 509
Covered service-reservoirs..... 105
Curves, railway..... 19
Curve resistance on railways... 182

Dams, high masonry..... 265
Danger in railway curves..... 19
Danube, improvements on the. 347
Defects, sanitary..... 140
Deflective forces on a revolving spheroid..... 45
Determining dimensions..... 146
Discovery, great..... 440
Driving bands, new joint for... 347
Drop press, use of..... 11
Dry-goods district, fire protection in..... 242
Duchartre's experiments..... 264
Dust movements..... 524
Dynamo-electric machines. 419, 490

Earth's rotation..... 47
Economy of gas..... 274

Page

Economy of steam power..... 148
Eddystone lighthouse..... 83
Effect of compression on steel. 84
Electrical conductors..... 78
Electrical engineering..... 87
Electrical experiments..... 352
Electrical machines..... 419, 490
Electrical units of measurement..... 367
Electric lamps..... 352
Electric launches..... 360
Electric locomotive..... 348
Embankments..... 521
Endurance of iron and steel. 128, 188
Energy, storage of..... 214
Engineering and science..... 4
Engine, compound..... 441

Engineering Societies.
American Society of Civil Engineers. 81, 171, 258, 345, 436, 519
Cleveland Institution of Engineers..... 260
Engineers' Club of Philadelphia..... 58, 346, 437, 520
Institution of Civil Engineers. 289
Engine, Otto..... 89
Equation of the fourth degree.. 49

Fire protection..... 242
Foot rule, Chinese..... 176
Forces, deflective..... 45
Formula, long-column..... 282, 398
Formula, Prof. Robinson's..... 398
Formula for stadia measurements..... 473
Forth bridge..... 260
French calculations of pressure in an arch..... 142
French steel gunboat..... 439
Friction, what is it?..... 278
Fuel economizers..... 260

Gas engine, Otto..... 89
Gas illumination, economy of.. 274
Gateways of knowledge..... 462
General theory of thermodynamics..... 124
Geodetic commission, resolutions of..... 257
Geometry, notes on..... 402
Germany, iron duties in..... 347
Gun, the Mann..... 523
Gutta-percha, superior..... 350
Gyrostatics..... 176

High dams, strains in..... 265
Hoisting apparatus..... 259
Houses, sanitary defects in..... 140
Howe truss brace..... 49
Hydraulic architecture..... 14

Illumination by gas..... 274
Improvements on the Danube. 347
Indian railway improvements. 173
Institution of Civil Engineers. 289
Intrados of arches..... 353
Iron, endurance of..... 128, 188
Iron and Steel, burning of..... 521
Iron, oxydizability of..... 438
Iron, physical condition of..... 249

	Page
Iron trade of Belgium	173
Irrigation works in Italy	88
Joints for boilerwork	59
Kerite telegraph cable	172
Knowledge, gateways of	462
Krupp guns, lengthening of	439
Launches, electric	360
Launch of an iron-clad	174
Lectures at Westminster	175
Lighthouse, Eddystone	83
Long-column formula	282, 398
Longitude and time	257
Long steel rails	439
Loss of pressure of steam	10
Lubricants, choice of	302
Macadamized roads	301
Machine guns, trials of	350
Machines, dynamo	419
Machines, testing	204, 325, 382
Macquaire lighthouse	347
Magnetism of iron and steel	104
Magnetism on the rail	173
Manganese bronze	53
Masonry dams, strains in	267
Massive dredger	347
Mann's cannon	523
Mathematical curves in arches	353
Measurement, electrical units of	367
Measurements, stadia	313
Mediterranean, level of	281
Meteorological Society	88
Methods of determining dimensions	146
Methods employed in geometry	402
Metrical measures	312
Metropolitan railway engines	174
Mortar, asphalte	104
Motion on the surface of a spheroid	241
Motor, electrical	461
Motor, sun	179
National Rubber Co	148
New alloy	46
New B. G. wire gauge	438
New cruisers	348
New compass	176
Notes on geometry	402
Numbers, algebraic	225
Optical formula	473
Otto gas engine	89
Oxydation of coal	440
Oxydizability of iron	438
Panama canal	82
Physical condition of iron and steel	249
Pigmy voltaic battery	352
Plant, steam generating	428
Preservation of timber	171
Pressure attainable by the use of the "drop press"	11
Primary batteries	263
Professor Nelsen's experiments	303
Professor Robinson's formula	398
Progress in electric machines	490
Protection in the dry-goods district	242
Prussian estimate of torches	174
Queensland railway board	173
Railway in Palestine	84
Railway matters	173
Railways in France	439
Railways of Canada	522
Railways of India	522
Rapid construction of long tunnels	169
Reduction of field observations	313
Reservoirs, service	105
Resistance on railway curves	19, 182
Resolutions of the Geodetic Commission	257
Revenue of Australian railways	263
Revolving spheroid	45
Riveted joints for boiler works	59
River embankments	521
Roads, macadamized	301
Rock drilling	172
Rotation of the earth	47
Sanitary defects in houses	140
Scale and corrosion in boilers	509
Science and engineering	4
Secondary batteries	214
Service reservoirs, covered	105
Shipbuilding	523
Shipping disasters	174
Six gateways of knowledge	462
Small trains	173
Solder coloring	524
Spheroid, motion on the surface of	241
Spheroid, revolving	45
Stadia measurements, theory of	313, 473
Steam boiler corrosion	509
Steam engine, compound	428, 441
Steam power, economy of	148
Steel, carbon in	83, 238
Steel deckplate trials	350
Steel, endurance of	128, 188
Steel and iron, burning of	521
Steel, physical condition of	489
Steel, strength of	519
Steel works	173
Strains in dams	265
Stresses in beams	1
Suez canal	31
Sun motor	179
Surveying, stadia	313
Telephones	352
Temperature of the sun	179
Testing machines	204, 325, 382, 477
Testing road bridges	521
Test of Lubricants	302
Theatre ventilation	304
Thermodynamics, theory of	124
Towing by endless chains	172
Tramways in Burmah	522
Tunnels, rapid construction of	169
Twin steamships	174
Unification of longitudes and of time	257
Units of measurements, electrical	367
Use of testing machines	204, 325, 382
Use of the "drop press"	11
Ventilation of theatres	304
Viguier's cipher code	418
Voltaic battery	352
Well, Artesian	437
What is friction?	278
